FOR IMMEDIATE RELEASE

Sager Electronics Expands TT electronics Offering Now Authorized for Optek, IRC, Welwyn and Semelab

Middleborough, Mass. – February 22, 2011- Sager Electronics, the electronic distribution industry’s leading privately held, employee-owned company, and TT electronics, announce the addition of several TT electronics’ product lines to Sager’s line card. TT electronics plc is a global electronics company manufacturing a broad range of advanced electronic components, assemblies and sensor modules for the aerospace, defense, telecommunications, computing and industrial electronics markets.

“Sager has had outstanding success with our BI Technologies product line. Sager’s position in the mid-tier market and their ability to reach and service new customers makes it a natural progression to extend their product authorization to include the Optek , IRC, Welwyn and Semelab product lines,” said Rob Everist, Senior Director of Sales–Americas for TT electronics.

“With TT electronics broad product offering, this partnership allows us to offer our customers more solutions. Increasing our engagement with TT electronics further validates our commitment to growth with our market leading brands,” said Faris Aruri, Vice President of Marketing for Sager Electronics.

About Sager Electronics
