

# We wrote the book on resistor solutions...

... and we're adding new chapters  
for customers every day.

If you're buying just any resistor, you can pick up just any manufacturer's databook and find what you need. But when your most challenging applications call for an innovative resistor solution that's "beyond the book" for thermal management, power dissipation, surge power limitation, current sensing, or special packaging, call IRC. When you can't find what you need in the other guys' databooks, we'll write a new chapter for you.

For help solving your toughest resistor  
challenges, call (828) 264-8861,  
or e-mail [waft.sales@irctt.com](mailto:waft.sales@irctt.com)

IRC Wirewound and Film Technologies

A Subsidiary of TT electronics plc
